Cooperating with Wisconsin Department of Agriculture, Trade and Consumer Protection

For the week ending September 26, 2021
Issued September 27, 2021

Media Contact: Greg Bussler

Wisconsin had 6.0 **days suitable for fieldwork** for the week ending September 26, 2021, according to the USDA's National Agricultural Statistics Service. Temperatures were slightly above normal across the state. Precipitation varied widely, from over 3 inches to less than ¼ inch. Wisconsin farmers had a busy week with mostly good conditions for fieldwork. Corn for grain, corn for silage, soybeans, and hay are coming off the fields, fall tillage and manure spreading are proceeding, and winter wheat is going in.

Topsoil moisture condition rated 11 percent very short, 17 percent short, 69 percent adequate and 3 percent surplus. **Subsoil moisture** condition rated 9 percent very short, 15 percent short, 72 percent adequate and 4 percent surplus.

Corn is reported 96 percent dented. Sixty-one percent of corn was mature, 2 days behind last year but 7 days ahead of the 5-year average. Harvest for grain is 5 percent complete, 2 days ahead of last year and 5 days ahead of the average. Corn condition was 76 percent good to excellent, one percentage point above last week. Corn silage is 80 percent harvested, 1 day ahead of last year and 16 days ahead of the average.

Soybeans are reported 97 percent coloring. Eighty percent of soybeans are dropping leaves, 2 days ahead of last year and 9 days ahead of the average. Soybean harvest is 11 percent complete, 2 days ahead of last year and 5 days ahead of the average. Soybean condition was 75 percent good to excellent, 2 percentage points above last week.

Potato harvest is reported 63 percent complete.

Winter wheat planting was 42 percent complete, 9 days behind last year but 4 days ahead of the average. Eighteen percent of winter wheat was emerged, 5 days behind last year but 1 day ahead of the average

The 4th cutting of **alfalfa hay** is 89 percent complete, 5 days ahead of last year and 15 days ahead of the average.

Pasture condition was rated 64 percent good to excellent, 1 percentage point above last week.

Fall tillage is reported 10 percent complete, 7 days ahead of last year and 4 days ahead of the average.
