Wisconsin had **5.0 days suitable for fieldwork** for the week ending July 10, 2022, according to the USDA’s National Agricultural Statistics Service. Parts of southern Wisconsin received heavy rains early in the week, but the State remains dry overall. Farmers continued to harvest their second cutting of hay.

Topsoil moisture condition rated 4 percent very short, 22 percent short, 73 percent adequate and 1 percent surplus. **Subsoil moisture** condition rated 6 percent very short, 19 percent short, 73 percent adequate and 2 percent surplus.

Corn condition was 76 percent good to excellent statewide, even with last week.

Soybeans blooming or beyond were at 29 percent, 1 week behind last year and 2 days behind the 5-year average. Soybean condition was 78 percent good to excellent, up 2 percentage points from last week.

Oats headed or beyond were at 79 percent, 13 days behind last year and 3 days behind the average. Oats coloring was at 34 percent, 5 days behind last year. Oat condition was 84 percent good to excellent, up 1 percentage point from last week.

Potato condition was 94 percent good to excellent, up 3 percentage points from last week.

Winter wheat coloring was at 79 percent, 9 days behind last year but 1 day ahead of the average. Winter wheat condition was rated 85 percent good to excellent statewide, up 1 percentage point from last week.

The second cutting of **alfalfa** was reported at 66 percent complete, 5 days ahead of the average. **All hay** condition was reported 81 percent good to excellent condition, up 2 percentage points from last week.

Pasture condition was rated 75 percent good to excellent, up 1 percentage point from last week.

Crop Condition as of July 10, 2022
