

Precision Plus Hosts Manufacturing Day 2022 Open House; Youth Apprenticeship Signing Ceremony

Tuesday, October 4, 2022 (ELKHORN, WI) – Precision Plus will open its doors on Thursday, October 20th, 2022, from 4 pm to 8 pm for its annual Manufacturing Day Open House and inaugural Youth Apprenticeship Signing Ceremony and Reception at their 840 Koopman Lane, Elkhorn, Wisconsin facility.

In conjunction with their Celebration of 40 Years in Walworth County, the Precision Plus MFG Day 2022 event will give the community an inside look at modern-day manufacturing. This event will enlighten guests on the transformative and progressive enhancements the advanced manufacturing industry has had over the decades. It will also inform the attendees how manufacturing and its partners significantly impacts all areas of the supply chain – at the local, regional, national, and even global scale.

Guided tours will begin at 4 pm, where attendees will have the opportunity to learn about how Precision Plus produces industry-critical components for clients in the healthcare, dental, aerospace, defense, and industrial industries. During the tours, attendees will see firsthand the investment Precision Plus makes to ensure the next generation of manufacturing professionals are well-equipped, highly trained, and ready to tackle challenges the manufacturing industry faces each and every day.

The inaugural Youth Apprenticeship Signing Ceremony begins at 5:45 pm. This ceremony commemorates the high school Youth Apprentices that are signing their intent to join the Precision Plus Youth Apprenticeship program to further their career in advanced manufacturing and precision machining. The event also hosts several speakers, including Owner and President Michael J Reader, Director of Education Stefan Brusky, Human Resources Manager Amanda Griffoul, and a few prominent guest speakers.

Precision Plus encourages all who wish to attend the Youth Apprenticeship Signing Ceremony and Reception to [click here](#) to register. For more details on the event visit www.preplus.com/mfgday.

About Precision Plus

Precision Plus provides precision machined solutions for small parts across aerospace, dental, medical, and more industries. The company's phenomenal culture of passionate people and commitment to ongoing investments in technology results in timely responses, quality products, and on-time delivery. Through collaborative engagement/early supplier involvement (ESI) with our clients, our Application Engineering team can help develop the most cost-effective solutions

to deliver ultimate performance and value. With support from our knowledgeable Production team, our professional Client Services group provides timely responses and delivers quality products on time and at a fair price. Precision Plus offers inventory management programs for our clients, whereby our team monitors inventory levels and finished components are shipped as needed.
