**Waukesha, Wis.** – [Aries Industries](#), the industry leader in state-of-the-art equipment for inspection and maintenance of underground infrastructure, has strengthened its market reach by adding Wisconsin-based [JWR Inc.](#) to its dealer network.

Based in Johnson Creek, [JWR Inc.](#) has expanded its offerings to include underground infrastructure inspection equipment, in addition to its core focus on innovative technology and solutions for waste and recycling. The 50-year-old company serves customers nationally with products to address their specific waste management needs, and installation and service that keeps the equipment operating at peak performance.

“We’re thrilled to add [Aries Industries’ products](#) to our rapidly-expanding business of providing advanced utility inspection and rehabilitation technology to municipalities,” said Dave Wolf, owner of [JWR Inc.](#) “The demand for top-line equipment to manage sewer and water infrastructure is growing. [Aries Industries](#) offers the cutting-edge solutions that our customers need to pursue this critical undertaking.”

“We only partner with dealers who are as committed to an outstanding customer experience as we are,” said Jim Kraschinsky, Vice-President of Sales at [Aries Industries](#). “We’re excited to add [JWR Inc.](#) to our expanding network, knowing they will provide Aries customers a great sales and service experience.”

The [Aries Industries](#) dealer network has grown rapidly in recent years, adding eight U.S. dealers coast to coast, and three in Canada, since 2019.

Founded in 1985, [Aries Industries](#) is the industry leader in manufacturing durable video pipeline inspection and rehabilitation systems, plus data management software, to meet the toughest challenges of underground infrastructure and environmental applications. Focused on “Raising the Bar Underground,” the company’s cameras, tractors and fully-integrated systems are built upon a bedrock of continuous innovation, unmatched reliability and expert customer service.
