EWH Small Business Accounting began in 1979, with a vision of helping the small business owner achieve their dream of running a financially sound company. That vision turned into a successful accounting, payroll, tax, and business consulting firm located in Waukesha and expanding to West Bend, Onalaska, and Madison.

Over the years, the team at EWH has shared their skills and knowledge with thousands of small businesses producing more than 125,000 financial statements, working with over 2,200 businesses monthly and thousands more at year end. We help observe the business patterns that lead to success or failure and share that knowledge with you through our [EWH University workshops](#).
