## Appendix A – FY 2024 Allocations

## FY 2024 Annual Formula Based Allocation of State Opioid Response Grants

Note: If all states/territories do not apply, funds remaining will be redistributed to all recipients. The "Annual Award Amount" column displays the MAXIMUM dollar amount PER YEAR for which a state/territory can apply. The project period is three years. Funding availability and allocations for the second and third years are contingent upon Congressional appropriations and direction.

In the Further Consolidated Appropriations Act, 2024 [P. L. 118-47], Congress mandated that the HHS Secretary make SOR funding allocations pursuant to the requirements of section 1003 of the 21<sup>st</sup> Century Cures Act [Public Law 114-255] (42 USC 290ee–3 note), as amended, which directs the HHS Secretary to leverage a formula that uses national survey results that the Secretary determines are the most objective and reliable measures of drug use and drug-related deaths. The formula must avoid a significant cliff between States with similar overdose mortality rates to prevent unusually large funding changes in States when compared to prior year allocations. The formula must also distribute a 15 percent set-aside to States with the highest mortality rate related to opioid use disorders.

In FY 2024, SAMHSA revised its formula to better meet this statutory requirement. Specifically, the formula continues to leverage data estimating drug overdose deaths and opioid misuse per state. Each state and the District of Columbia receives a minimum award of \$4M. Each territory receives a minimum award of \$500K.

Additionally, the 15 percent set-aside was distributed among the 25 states with the highest overdose mortality rates. For the FY 2024 allocation, the following states were included in the set-aside: AK, AZ, CT, DE, DC, FL, IN, KY, LA, ME, MD, MA, MO, NH, NJ, NM, NC, OH, PA, RI, SC, TN, VT, WV, WI.

State	FY 2024 Annual Award Amount
ALABAMA	\$16,176,149
ALASKA	\$5,989,474
AMERICAN SAMOA	\$500,000
