

FOR IMMEDIATE RELEASE

Northern Generations Construction, Renowned as the Best Roofing Service in Milwaukee, Now Offering Solutions Throughout Wisconsin

5-star rated home roofing, insulation, and exterior remodeling services expanding to Green Bay, Madison, and beyond

MILWAUKEE—March 22, 2025—Northern Generations Construction, the premier Wisconsin roofing company, today announced that it has expanded its premier roofing, exterior remodeling, and energy-efficient home improvement solutions services to the entire state of Wisconsin. Long renowned as the best roofing service in Milwaukee, the company is expanding its service areas based on the growing needs of Green Bay and Madison.

Northern Generations, with its trusted, skilled, and professional team, is the go-to residential and commercial roofing company in the greater Milwaukee area. It provides roof inspections, roof repair, roof installation, siding installation, window replacement, gutter services, general construction, high-quality remodeling, comprehensive storm damage repairs, and insurance claims assistance.

“Northern Generations Construction provides home and business owners with the highest quality work, installed by professionals who take pride in their workmanship,” said a spokesperson for Northern Generations Construction. “Teamwork is at the heart of what we do. Our entire crew is committed to making your vision a reality.”

Northern Generations Construction is dedicated to sustainability, energy efficiency, and innovative building practices. It partners with Wisconsin homeowners and businesses to reduce energy costs and enhance property values.

Services are available for Milwaukee, Green Bay, Madison, Oshkosh, New Berlin, Appleton, Waukesha, and Wauwatosa.

The spokesperson explained, “Our highly trained technicians begin by removing old insulation, hangers, anchors, and debris until we are satisfied that the area is ready for a fresh face. Then we apply the highest quality spray foam insulation, which can get into even the tightest places, and ensure attics are properly vented to insure future viability.”

Northern Generations Construction is licensed, insured, locally owned, and operated. The company is a Certified CertainTeed shingle master and certified Tamko installer.

The company is accredited by BBB and has a pristine 5-star rating on Google.
