

PRESS RELEASE

Wire Tech Transitions to New Ownership

Appleton, Wisconsin, March 12, 2026

Michael Schwantes, President & CEO, and Steve Ford, Executive Vice President of Creative Business Services/CBS-Global, are pleased to announce the successful sale of Wire Tech, an industrial filter manufacturing business based in Appleton, Wisconsin.

For over 35 years, Wire Tech has built a strong reputation for quality and craftsmanship, specializing in custom-manufactured filtration products serving the paper industry worldwide. The company has developed long-standing relationships within the industrial sector and is recognized for delivering reliable, precision-manufactured filtration solutions.

Wire Tech was owned by Kenneth L. Rodgers and Jill Rodgers, who have led the company through decades of growth and industry recognition. The business has been acquired by Jon Mason of Mason Family Holdings LLC. Under new ownership, Wire Tech will continue operations in Appleton and maintain its commitment to serving existing customers while positioning the company for future growth.

The transaction was facilitated by Michael Schwantes and Steve Ford of Creative Business Services/CBS-Global, who represented the sellers throughout the process.

Since 1979, Creative Business Services/CBS-Global has specialized in the sale of businesses and commercial real estate throughout Wisconsin and the Midwest. Additional information on the company's services and history can be found at: <http://www.cbs-global.com>.
