Transforming Lives, One Home at a Time
Tri City National Bank and Revitalize Milwaukee Partner to Complete
Critical Home Repairs in Waukesha
Saturday, June 27 | Waukesha, WI

Waukesha, WI — June 27, 2026 — Tri City National Bank will join forces with Revitalize Milwaukee to complete critical home repairs for a Waukesha homeowner as part of a Revitalize Project volunteer event. This partnership reflects a shared commitment to strengthening communities, improving housing stability, and helping residents remain safe and independent in their homes.

During the project, Tri City National Bank employees will work alongside Revitalize Milwaukee staff and volunteers to address essential repairs and home modifications that will improve the safety, accessibility, and overall quality of life for the homeowner. The project will provide meaningful support to a resident who may otherwise be unable to afford these critical repairs.

"Tri City National Bank and its bankers have supported Revitalize Milwaukee for more than two decades in Milwaukee and Waukesha Counties. We are honored to be a part of an organization that shares our commitment to the homeowners, neighborhoods, and the communities of our hometown," said Bruce Elliott, Executive Vice President, Commercial Banking of Tri City National Bank. "Stabilized neighborhoods are the key driver for our community's success. Revitalize Milwaukee has supported more than 4,000 homeowners since 2000, and Tri City is grateful to have played a key role in driving that success"

"Tri City National Bank has demonstrated a strong commitment to serving our communities, and we are grateful for their partnership," said Melanie Roach, CEO of Revitalize Milwaukee. "By investing their time and resources into projects like this, they are helping ensure that homeowners can continue living safely and with dignity in the homes they love."

As a community-focused financial institution, Tri City National Bank is dedicated to supporting initiatives that create lasting impact throughout southeastern Wisconsin. Through volunteerism and community investment, the bank continues to make a difference in the neighborhoods it serves.

The Revitalize Project in Waukesha demonstrates how critical home repairs and accessibility improvements do far more than improve a house—they help homeowners live safely, independently, and with dignity. By eliminating hazards, enhancing accessibility, and preserving affordable housing, this work provides peace of mind for homeowners and their families while ensuring they can remain safe and secure in the place they call home.

Revitalize Milwaukee has a long-standing history of providing free critical home repairs to low-income homeowners, particularly older adults, veterans, and individuals living with disabilities. Partnerships like

this allow the organization to expand its reach and serve more families throughout Milwaukee and Waukesha Counties.

Together, Tri City National Bank and Revitalize Milwaukee are making a meaningful investment in the future of Waukesha one home, one homeowner, and one neighborhood at a time.
